COMPREHENSIVE ICF CORE SET for NEUROLOGICAL CONDITIONS for POST-ACUTE CARE

	FUNCTIONS logical functions of body systems (including psychological functions)
b110	Consciousness functions
5110	General mental functions of the state of awareness and alertness, including the clarity and continuity of the
	wakeful state. Inclusions: functions of the state, continuity and quality of consciousness; loss of consciousness, coma, vegetative states, fugues, trance states, possession states, drug-induced altered consciousness, delirium, stupor
b 4 4 4	Exclusions: orientation functions (b114); energy and drive functions (b130); sleep functions (b134)
b114	Orientation functions General mental functions of knowing and ascertaining one's relation to self, to others, to time and to one's
	surroundings.
	Inclusions: functions of orientation to time, place and person; orientation to self and others; disorientation to time, place and person
	Exclusions: consciousness functions (b110); attention functions (b140); memory functions (b144)
b126	Temperament and personality functions
	General mental functions of constitutional disposition of the individual to react in a particular way to situations, including the set of mental characteristics that makes the individual distinct from others.
	Inclusions: functions of extraversion, introversion, agreeableness, conscientiousness, psychic and emotional stability, and openness to experience; optimism; novelty seeking; confidence; trustworthiness
	Exclusions: intellectual functions (b117); energy and drive functions (b130); psychomotor functions (b147); emotional functions (b152)
b130	Energy and drive functions
	General mental functions of physiological and psychological mechanisms that cause the individual to move
	towards satisfying specific needs and general goals in a persistent manner.
	Inclusions: functions of energy level, motivation, appetite, craving (including craving for substances that can be abused) and impulse control
	Exclusions: consciousness functions (b110); temperament and personality functions (b126); sleep functions (b134);
	psychomotor functions (b147); emotional functions (b152)
b134	Sleep functions
	General mental functions of periodic, reversible and selective physical and mental disengagement from one's immediate environment accompanied by characteristic physiological changes. Inclusions: functions of amount of sleeping, and onset, maintenance and quality of sleep; functions involving the sleep cycle, such as in insomnia, hypersomnia and narcolepsy Exclusions: consciousness functions (b110); energy and drive functions (b130); attention functions (b140); psychomotor functions (b147)
b140	Attention functions
	Specific mental functions of focusing on an external stimulus or internal experience for the required period of
	time. Inclusions: functions of sustaining attention, shifting attention, dividing attention, sharing attention; concentration;
	distractibility
	Exclusions: consciousness functions (b110); energy and drive functions (b130); sleep functions (b134); memory functions (b144); psychomotor functions (b147); perceptual functions (b156)
b144	Memory functions
	Specific mental functions of registering and storing information and retrieving it as needed. Inclusions: functions of short-term and long-term memory, immediate, recent and remote memory; memory span; retrieval of memory; remembering; functions used in recalling and learning, such as in nominal, selective and dissociative amnesia Exclusions: consciousness functions (b110); orientation functions (b114); intellectual functions (b117); attention
	functions (b140); perceptual functions (b156); thought functions (b160); higher-level cognitive functions (b164); mental functions of language (b167); calculation functions (b172)
b147	Psychomotor functions
	Specific mental functions of control over both motor and psychological events at the body level. Inclusions: functions of psychomotor control, such as psychomotor retardation, excitement and agitation, posturing, catatonia, negativism, ambitendency, echopraxia and echolalia; quality of psychomotor function Exclusions: consciousness functions (b110); orientation functions (b114); intellectual functions (b117); energy and drive functions (b130); attention functions (b140); mental functions of language (b167); mental functions of sequencing complex movements (b176)

	-
b152	Emotional functions
	Specific mental functions related to the feeling and affective components of the processes of the mind.
	Inclusions: functions of appropriateness of emotion, regulation and range of emotion; affect; sadness, happiness, love,
	fear, anger, hate, tension, anxiety, joy, sorrow; lability of emotion; flattening of affect
	Exclusions: temperament and personality functions (b126); energy and drive functions (b130)
b156	Perceptual functions
	Specific mental functions of recognizing and interpreting sensory stimuli.
	Inclusions: functions of auditory, visual, olfactory, gustatory, tactile and visuospatial perception, such as a hallucination
	or illusion
	Exclusions: consciousness functions (b110); orientation functions (b114); attention functions (b140); memory functions
	(b144); mental functions of language (b167); seeing and related functions (b210-b229); hearing and vestibular functions
1.400	(b230-b249); additional sensory functions (b250-b279)
b160	Thought functions
	Specific mental functions related to the ideational component of the mind.
	Inclusions: functions of pace, form, control and content of thought; goal-directed thought functions, non-goal directed
	thought functions; logical thought functions, such as pressure of thought, flight of ideas, thought block, incoherence of thought, tangentiality, circumstantiality, delusions, obsessions and compulsions
	Exclusions: intellectual functions (b117); memory functions (b144); psychomotor functions (b147); perceptual functions
	(b156); higher-level cognitive functions (b164); mental functions of language (b167); calculation functions (b172)
b164	Higher-level cognitive functions
D 104	<u> </u>
	Specific mental functions especially dependent on the frontal lobes of the brain, including complex goal-directed behaviours such as decision-making, abstract thinking, planning and carrying out plans, mental
	flexibility, and deciding which behaviours are appropriate under what circumstances; often called executive
	functions.
	Inclusions: functions of abstraction and organization of ideas; time management, insight and judgement; concept
	formation, categorization and cognitive flexibility
	Exclusions: memory functions (b144); thought functions (b160); mental functions of language (b167); calculation
	functions (b172)
b167	Mental functions of language
	Specific mental functions of recognizing and using signs, symbols and other components of a language.
	Inclusions: functions of reception and decryption of spoken, written or other forms of language such as sign language;
	functions of expression of spoken, written or other forms of language; integrative language functions, spoken and
	written, such as involved in receptive, expressive, Broca's, Wernicke's and conduction aphasia
	Exclusions: attention functions (b140); memory functions (b144); perceptual functions (b156); thought functions (b160);
	higher-level cognitive functions (b164); calculation functions (b172); mental functions of complex movements (b176);
	Chapter 2 Sensory Functions and Pain; Chapter 3 Voice and Speech Functions
b176	Mental functions of sequencing complex movements
	Specific mental functions of sequencing and coordinating complex, purposeful movements.
	Inclusions: impairments such as in ideation, ideomotor, dressing, oculomotor and speech apraxia
	Exclusions: psychomotor functions (b147); higher-level cognitive functions (b164); Chapter 7 Neuromusculoskeletal and
	Movement-Related Functions
b180	Experience of self and time functions
	Specific mental functions related to the awareness of one's identity, one's body, one's position in the reality of
	one's environment and of time.
1.040	Inclusions: functions of experience of self, body image and time
b210	Seeing functions
	Sensory functions relating to sensing the presence of light and sensing the form, size, shape and colour of the
	visual stimuli.
	Inclusions: visual acuity functions; visual field functions; quality of vision; functions of sensing light and colour, visual acuity of distant and near vision, monocular and binocular vision; visual picture quality; impairments such as myopia,
	hypermetropia, astigmatism, hemianopia, colour-blindness, tunnel vision, central and peripheral scotoma, diplopia, night
	blindness and impaired adaptability to light
	Exclusion: perceptual functions (b156)
b215	Functions of structures adjoining the eye
	Functions of structures in and around the eye that facilitate seeing functions.
	Inclusions: functions of internal muscles of the eye, eyelid, external muscles of the eye, including voluntary and tracking
	movements and fixation of the eye, lachrymal glands, accommodation, pupillary reflex; impairments such as in
	nystagmus, xerophthalmia and ptosis
	Exclusions: seeing functions (b210); Chapter 7 Neuromusculoskeletal and Movement-related Functions
b230	Hearing functions
	Sensory functions relating to sensing the presence of sounds and discriminating the location, pitch, loudness
	and quality of sounds.
	Inclusions: functions of hearing, auditory discrimination, localization of sound source, lateralization of sound, speech
	discrimination; impairments such as deafness, hearing impairment and hearing loss
	Exclusions: perceptual functions (b156) and mental functions of language (b167)

b235	Vestibular functions
0200	Sensory functions of the inner ear related to position, balance and movement.
	Inclusions: functions of position and positional sense; functions of balance of the body and movement
	Exclusion: sensations associated with hearing and vestibular functions (b240)
b240	Sensations associated with hearing and vestibular functions
	Sensations of dizziness, falling, tinnitus and vertigo. Inclusions: sensations of ringing in ears, irritation in ear, aural pressure, nausea associated with dizziness or vertigo
	Exclusions: vestibular functions (b235); sensation of pain (b280)
b260	Proprioceptive function
	Sensory functions of sensing the relative position of body parts.
	Inclusions: functions of statesthesia and kinaesthesia
LOCE.	Exclusions: vestibular functions (b235); sensations related to muscles and movement functions (b780)
b265	Touch functions
	Inclusions: functions of touching, feeling of touch; impairments such as numbness, anaesthesia, tingling, paraesthesia
	and hyperaesthesia
	Exclusions: sensory functions related to temperature and other stimuli (b270)
b270	Sensory functions related to temperature and other stimuli
	Sensory functions of sensing temperature, vibration, pressure and noxious stimulus. Inclusions: functions of being sensitive to temperature, vibration, shaking or oscillation, superficial pressure, deep
	pressure, burning sensation or a noxious stimulus
	Exclusions: touch functions (b265); sensation of pain (b280)
b280	Sensation of pain
	Sensation of unpleasant feeling indicating potential or actual damage to some body structure.
	Inclusions: sensations of generalized or localized pain in one or more body part, pain in a dermatome, stabbing pain, burning pain, dull pain, aching pain; impairments such as myalgia, analgesia and hyperalgesia
b310	Voice functions
20.0	Functions of the production of various sounds by the passage of air through the larynx.
	Inclusions: functions of production and quality of voice; functions of phonation, pitch, loudness and other qualities of
	voice; impairments such as aphonia, dysphonia, hoarseness, hypernasality and hyponasality
b320	Exclusions: mental functions of language (b167); articulation functions (b320) Articulation functions
0320	Functions of the production of speech sounds.
	Inclusions: functions of enunciation, articulation of phonemes; spastic, ataxic, flaccid dysarthria; anarthria
	Exclusions: mental functions of language (b167); voice functions (b310)
b340	Alternative vocalization functions
	Functions of the production of other manners of vocalization.
	Inclusions: functions of the production of notes and range of sounds, such as in singing, chanting, babbling and humming; crying aloud and screaming
	Exclusions: mental functions of language (b167); voice functions (b310); articulation functions (b320); fluency and
	rhythm of speech functions (b330)
b410	Heart functions
	Functions of pumping the blood in adequate or required amounts and pressure throughout the body. Inclusions: functions of heart rate, rhythm and output; contraction force of ventricular muscles; functions of heart valves;
	pumping the blood through the pulmonary circuit; dynamics of circulation to the heart; impairments such as tachycardia,
	bradycardia and irregular heart beat and as in heart failure, cardiomyopathy, myocarditis and coronary insufficiency,
b 445	Exclusions: blood vessel functions (b415); blood pressure functions (b420); exercise tolerance functions (b455)
b415	Blood vessel functions Europiana of transporting blood throughout the body
	Functions of transporting blood throughout the body. Inclusions: functions of arteries, capillaries and veins; vasomotor function; functions of pulmonary arteries, capillaries
	and veins; functions of valves of veins; impairments such as in blockage or constriction of arteries; atherosclerosis,
	arteriosclerosis, thromboembolism and varicose veins
	Exclusions: heart functions (b410); blood pressure functions (b420); haematological system functions (b430); exercise tolerance functions (b455)
b420	Blood pressure functions
D	Functions of maintaining the pressure of blood within the arteries.
	Inclusions: functions of maintenance of blood pressure; increased and decreased blood pressure; impairments such as
	in hypotension, hypertension and postural hypotension
b430	Exclusions: heart functions (b410); blood vessel functions (b415); exercise tolerance functions (b455)
D430	Haematological system functions Functions of blood production, oxygen and metabolite carriage, and clotting.
	Inclusions: functions of the production of blood and bone marrow; oxygen-carrying functions of blood; blood-related
	functions of spleen; metabolite-carrying functions of blood; clotting; impairments such as in anaemia, haemophilia and
	other clotting dysfunctions Evaluations: functions of the cardiavaccular system (b410 b420): immunological system functions (b425): evaration
	Exclusions: functions of the cardiovascular system (b410-b429); immunological system functions (b435); exercise tolerance functions (b455)
	Transfer in the tool

b435	Immunological system functions
	Functions of the body related to protection against foreign substances, including infections, by specific and
	non-specific immune responses.
	Inclusions: immune response (specific and non-specific); hypersensitivity reactions; functions of lymphatic vessels and
	nodes; functions of cell-mediated immunity, antibody-mediated immunity; response to immunization; impairments such
	as in autoimmunity, allergic reactions, lymphadenitis and lymphoedema
	Exclusion: haematological system functions (b430)
b440	Respiration functions
	Functions of inhaling air into the lungs, the exchange of gases between air and blood, and exhaling air.
	Inclusions: functions of respiration rate, rhythm and depth; impairments such as apnoea, hyperventilation, irregular
	respiration, paradoxical respiration and bronchial spasm and as in pulmonary emphysema.
	Exclusions: respiratory muscle functions (b445); additional respiratory functions (b450); exercise tolerance functions
	(b455)
b450	Additional respiratory functions
D-130	
	Additional functions related to breathing, such as coughing, sneezing and yawning.
	Inclusions: functions of blowing, whistling and mouth breathing
b455	Exercise tolerance functions
	Functions related to respiratory and cardiovascular capacity as required for enduring physical exertion.
	Inclusions: functions of physical endurance, aerobic capacity, stamina and fatigability
	Exclusions: functions of the cardiovascular system (b410-b429); haematological system functions (b430); respiration
	functions (b440); respiratory muscle functions (b445); additional respiratory functions (b450)
hE10	
b510	Ingestion functions
	Functions related to taking in and manipulating solids or liquids through the mouth into the body.
	Inclusions: functions of sucking, chewing and biting, manipulating food in the mouth, salivation, swallowing, burping,
	regurgitation, spitting and vomiting; impairments such as dysphagia, aspiration of food, aerophagia, excessive
	salivation, drooling and insufficient salivation
	Exclusion: sensations associated with digestive system (b535)
b515	Digestive functions
0313	
	Functions of transporting food through the gastrointestinal tract, breakdown of food and absorption of
	nutrients.
	Inclusions: functions of transport of food through the stomach, peristalsis; breakdown of food, enzyme production and
	action in stomach and intestines; absorption of nutrients and tolerance to food; impairments such as in hyperacidity of
	stomach, malabsorption, intolerance to food, hypermotility of intestines, intestinal paralysis, intestinal obstruction and
	decreased bile production
	debreased blie production
	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated
	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated
h525	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535)
b525	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions
b525	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions.
b525	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence;
b525	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence
b525	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system
	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system (b535)
b525	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system
	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system (b535) Weight maintenance functions
	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system (b535) Weight maintenance functions Functions of maintaining appropriate body weight, including weight gain during the developmental period.
	 Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system (b535) Weight maintenance functions Functions of maintaining appropriate body weight, including weight gain during the developmental period. Inclusions: functions of maintenance of acceptable Body Mass Index (BMI); impairments such as underweight,
	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system (b535) Weight maintenance functions Functions of maintaining appropriate body weight, including weight gain during the developmental period. Inclusions: functions of maintenance of acceptable Body Mass Index (BMI); impairments such as underweight, cachexia, wasting, overweight, emaciation and such as in primary and secondary obesity
b530	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system (b535) Weight maintenance functions Functions of maintaining appropriate body weight, including weight gain during the developmental period. Inclusions: functions of maintenance of acceptable Body Mass Index (BMI); impairments such as underweight, cachexia, wasting, overweight, emaciation and such as in primary and secondary obesity Exclusions: assimilation functions (b520); general metabolic functions (b540); endocrine gland functions (b555)
	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system (b535) Weight maintenance functions Functions of maintaining appropriate body weight, including weight gain during the developmental period. Inclusions: functions of maintenance of acceptable Body Mass Index (BMI); impairments such as underweight, cachexia, wasting, overweight, emaciation and such as in primary and secondary obesity Exclusions: assimilation functions (b520); general metabolic functions (b540); endocrine gland functions (b555) Sensations associated with the digestive system
b530	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system (b535) Weight maintenance functions Functions of maintaining appropriate body weight, including weight gain during the developmental period. Inclusions: functions of maintenance of acceptable Body Mass Index (BMI); impairments such as underweight, cachexia, wasting, overweight, emaciation and such as in primary and secondary obesity Exclusions: assimilation functions (b520); general metabolic functions (b540); endocrine gland functions (b555) Sensations associated with the digestive system Sensations arising from eating, drinking and related digestive functions.
b530	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system (b535) Weight maintenance functions Functions of maintaining appropriate body weight, including weight gain during the developmental period. Inclusions: functions of maintenance of acceptable Body Mass Index (BMI); impairments such as underweight, cachexia, wasting, overweight, emaciation and such as in primary and secondary obesity Exclusions: assimilation functions (b520); general metabolic functions (b540); endocrine gland functions (b555) Sensations associated with the digestive system Sensations arising from eating, drinking and related digestive functions. Inclusions: sensations of nausea, feeling bloated, and the feeling of abdominal cramps, fullness of stomach, globus
b530	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system (b535) Weight maintenance functions Functions of maintaining appropriate body weight, including weight gain during the developmental period. Inclusions: functions of maintenance of acceptable Body Mass Index (BMI); impairments such as underweight, cachexia, wasting, overweight, emaciation and such as in primary and secondary obesity Exclusions: assimilation functions (b520); general metabolic functions (b540); endocrine gland functions (b555) Sensations associated with the digestive system Sensations arising from eating, drinking and related digestive functions.
b530	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system (b535) Weight maintenance functions Functions of maintaining appropriate body weight, including weight gain during the developmental period. Inclusions: functions of maintenance of acceptable Body Mass Index (BMI); impairments such as underweight, cachexia, wasting, overweight, emaciation and such as in primary and secondary obesity Exclusions: assimilation functions (b520); general metabolic functions (b540); endocrine gland functions (b555) Sensations associated with the digestive system Sensations arising from eating, drinking and related digestive functions. Inclusions: sensations of nausea, feeling bloated, and the feeling of abdominal cramps, fullness of stomach, globus feeling, spasm of stomach, gas in stomach and heartburn
b530 b535	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system (b535) Weight maintenance functions Functions of maintaining appropriate body weight, including weight gain during the developmental period. Inclusions: functions of maintenance of acceptable Body Mass Index (BMI); impairments such as underweight, cachexia, wasting, overweight, emaciation and such as in primary and secondary obesity Exclusions: assimilation functions (b520); general metabolic functions (b540); endocrine gland functions (b555) Sensations associated with the digestive system Sensations arising from eating, drinking and related digestive functions. Inclusions: sensations of nausea, feeling bloated, and the feeling of abdominal cramps, fullness of stomach, globus feeling, spasm of stomach, gas in stomach and heartburn Exclusions: sensation of pain (b280); ingestion functions (b510); digestive functions (b515); defecation functions (b525)
b530	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system (b535) Weight maintenance functions Functions of maintaining appropriate body weight, including weight gain during the developmental period. Inclusions: functions of maintenance of acceptable Body Mass Index (BMI); impairments such as underweight, cachexia, wasting, overweight, emaciation and such as in primary and secondary obesity Exclusions: assimilation functions (b520); general metabolic functions (b540); endocrine gland functions (b555) Sensations arising from eating, drinking and related digestive functions. Inclusions: sensations of nausea, feeling bloated, and the feeling of abdominal cramps, fullness of stomach, globus feeling, spasm of stomach, gas in stomach and heartburn Exclusions: sensation of pain (b280); ingestion functions (b510); digestive functions (b515); defecation functions (b525) General metabolic functions
b530 b535	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system (b535) Weight maintenance functions Functions of maintaining appropriate body weight, including weight gain during the developmental period. Inclusions: functions of maintenance of acceptable Body Mass Index (BMI); impairments such as underweight, cachexia, wasting, overweight, emaciation and such as in primary and secondary obesity Exclusions: assimilation functions (b520); general metabolic functions (b540); endocrine gland functions (b555) Sensations associated with the digestive system Sensations arising from eating, drinking and related digestive functions. Inclusions: sensations of nausea, feeling bloated, and the feeling of abdominal cramps, fullness of stomach, globus feeling, spasm of stomach, gas in stomach and heartburn Exclusions: sensation of pain (b280); ingestion functions (b510); digestive functions (b515); defecation functions (b525) General metabolic functions Functions of regulation of essential components of the body such as carbohydrates, proteins and fats, the
b530 b535	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system (b535) Weight maintenance functions Functions of maintaining appropriate body weight, including weight gain during the developmental period. Inclusions: functions of maintenance of acceptable Body Mass Index (BMI); impairments such as underweight, cachexia, wasting, overweight, emaciation and such as in primary and secondary obesity Exclusions: assimilation functions (b520); general metabolic functions (b540); endocrine gland functions (b555) Sensations associated with the digestive system Sensations arising from eating, drinking and related digestive functions. Inclusions: sensations of nausea, feeling bloated, and the feeling of abdominal cramps, fullness of stomach, globus feeling, spasm of stomach, gas in stomach and heartburn Exclusions: sensation of pain (b280); ingestion functions (b510); digestive functions (b515); defecation functions (b525) General metabolic functions Functions of regulation of essential components of the body such as carbohydrates, proteins and fats, the conversion of one to another, and their breakdown into energy.
b530 b535	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system (b535) Weight maintenance functions Functions of maintaining appropriate body weight, including weight gain during the developmental period. Inclusions: functions of maintenance of acceptable Body Mass Index (BMI); impairments such as underweight, cachexia, wasting, overweight, emaciation and such as in primary and secondary obesity Exclusions: assimilation functions (b520); general metabolic functions (b540); endocrine gland functions (b555) Sensations associated with the digestive system Sensations arising from eating, drinking and related digestive functions. Inclusions: sensations of nausea, feeling bloated, and the feeling of abdominal cramps, fullness of stomach, globus feeling, spasm of stomach, gas in stomach and heartburn Exclusions: sensation of pain (b280); ingestion functions (b510); digestive functions (b515); defecation functions (b525) General metabolic functions Functions of regulation of essential components of the body such as carbohydrates, proteins and fats, the conversion of one to another, and their breakdown into energy. Inclusions: functions of metabolism, basal metabolic rate, metabolism of carbohydrate, protein and fat, catabolism,
b530 b535	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system (b535) Weight maintenance functions Functions of maintaining appropriate body weight, including weight gain during the developmental period. Inclusions: functions of maintenance of acceptable Body Mass Index (BMI); impairments such as underweight, cachexia, wasting, overweight, emaciation and such as in primary and secondary obesity Exclusions: assimilation functions (b520); general metabolic functions (b540); endocrine gland functions (b555) Sensations associated with the digestive system Sensations arising from eating, drinking and related digestive functions. Inclusions: sensations of nausea, feeling bloated, and the feeling of abdominal cramps, fullness of stomach, globus feeling, spasm of stomach, gas in stomach and heartburn Exclusions: sensation of pain (b280); ingestion functions (b510); digestive functions (b515); defecation functions (b525) General metabolic functions Functions of regulation of essential components of the body such as carbohydrates, proteins and fats, the conversion of one to another, and their breakdown into energy. Inclusions: functions of metabolism, basal metabolic rate, metabolism of carbohydrate, protein and fat, catabolism, anabolism, energy production in the body; increase or decrease in metabolic rate
b530 b535	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system (b535) Weight maintenance functions Functions of maintaining appropriate body weight, including weight gain during the developmental period. Inclusions: functions of maintenance of acceptable Body Mass Index (BMI); impairments such as underweight, cachexia, wasting, overweight, emaciation and such as in primary and secondary obesity Exclusions: assimilation functions (b520); general metabolic functions (b540); endocrine gland functions (b555) Sensations associated with the digestive system Sensations arising from eating, drinking and related digestive functions. Inclusions: sensation of nausea, feeling bloated, and the feeling of abdominal cramps, fullness of stomach, globus feeling, spasm of stomach, gas in stomach and heartburn Exclusions: sensation of pain (b280); ingestion functions (b510); digestive functions (b515); defecation functions (b525) General metabolic functions Functions of regulation of essential components of the body such as carbohydrate, protein and fat, catabolism, anabolism, energy production in the body; increase or decrease in metabolic rate Exclusions: assimilation functions (b520); weight maintenance functions (b530); water, mineral and electrolyte balance
b530 b535	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system (b535) Weight maintenance functions Functions of maintaining appropriate body weight, including weight gain during the developmental period. Inclusions: functions of maintenance of acceptable Body Mass Index (BMI); impairments such as underweight, cachexia, wasting, overweight, emaciation and such as in primary and secondary obesity Exclusions: assimilation functions (b520); general metabolic functions (b540); endocrine gland functions (b555) Sensations associated with the digestive system Sensations arising from eating, drinking and related digestive functions. Inclusions: sensations of nausea, feeling bloated, and the feeling of abdominal cramps, fullness of stomach, globus feeling, spasm of stomach, gas in stomach and heartburn Exclusions: sensation of pain (b280); ingestion functions (b510); digestive functions (b515); defecation functions (b525) General metabolic functions Functions of regulation of essential components of the body such as carbohydrates, proteins and fats, the conversion of one to another, and their breakdown into energy. Inclusions: functions of metabolism, basal metabolic rate, metabolism of carbohydrate, protein and fat, catabolism, anabolism, energy production in the body; increase or decrease in metabolic rate
b530 b535 b540	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system (b535) Weight maintenance functions Functions of maintaining appropriate body weight, including weight gain during the developmental period. Inclusions: functions of maintenance of acceptable Body Mass Index (BMI); impairments such as underweight, cachexia, wasting, overweight, emaciation and such as in primary and secondary obesity Exclusions: assimilation functions (b520); general metabolic functions (b540); endocrine gland functions (b555) Sensations associated with the digestive system Sensations arising from eating, drinking and related digestive functions. Inclusions: sensations of nausea, feeling bloated, and the feeling of abdominal cramps, fullness of stomach, globus feeling, spasm of stomach, gas in stomach and heartburn Exclusions: sensation of pain (b280); ingestion functions (b510); digestive functions (b515); defecation functions (b525) General metabolic functions Functions of regulation of essential components of the body such as carbohydrates, protein and fat, catabolism, anabolism, energy production in the body; increase or decrease in metabolic rate Exclusions: assimilation functions (b520); weight maintenance functions (b530); water, mineral and electrolyte balance functions (b545); thermoregulatory functions (b550); endocrine glands functions (b555)
b530 b535	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system (b535) Weight maintenance functions Functions of maintaining appropriate body weight, including weight gain during the developmental period. Inclusions: functions of maintenance of acceptable Body Mass Index (BMI); impairments such as underweight, cachexia, wasting, overweight, emaciation and such as in primary and secondary obesity Exclusions: assimilation functions (b520); general metabolic functions (b540); endocrine gland functions (b555) Sensations associated with the digestive system Sensations arising from eating, drinking and related digestive functions. Inclusions: sensations of nausea, feeling bloated, and the feeling of abdominal cramps, fullness of stomach, globus feeling, spasm of stomach, gas in stomach and heartburn Exclusions: sensation of pain (b280); ingestion functions (b510); digestive functions (b515); defecation functions (b525) General metabolic functions Functions of regulation of essential components of the body such as carbohydrates, proteins and fats, the conversion of one to another, and their breakdown into energy. Inclusions: functions of metabolism, basal metabolic rate, metabolism of carbohydrate, protein and fat, catabolism, anabolism, energy production in the body; increase or decrease in metabolic rate Exclusions: assimilation functions (b520); weight maintenance functions (b535); water, mineral and electrolyte balance functions (b545); thermoregulatory functions (b550);
b530 b535 b540	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system (b535) Weight maintenance functions Functions of maintaining appropriate body weight, including weight gain during the developmental period. Inclusions: functions of maintenance of acceptable Body Mass Index (BMI); impairments such as underweight, eachexia, wasting, overweight, emaciation and such as in primary and secondary obesity Exclusions: assimilation functions (b520); general metabolic functions (b540); endocrine gland functions (b555) Sensations associated with the digestive system Sensations arising from eating, drinking and related digestive functions. Inclusions: sensations of nausea, feeling bloated, and the feeling of abdominal cramps, fullness of stomach, globus feeling, spasm of stomach, gas in stomach and heartburn Exclusions: sensation of pain (b280); ingestion functions (b510); digestive functions (b515); defecation functions (b525) General metabolic functions Functions of regulation of essential components of the body such as carbohydrates, proteins and fats, the conversion of one to another, and their breakdown into energy. Inclusions: functions of metabolism, basal metabolic rate, metabolism of carbohydrate, protein and fat, catabolism, anabolism, energy production in the body; increase or decrease in metabolic rate Exclusions: assimilation functions (b520); weight maintenance functions (b530); water, mineral and electrolyte balance functions Functions of the regulation of water, minera
b530 b535 b540	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system (b535) Weight maintenance functions Functions of maintaining appropriate body weight, including weight gain during the developmental period. Inclusions: functions of maintenance of acceptable Body Mass Index (BMI); impairments such as underweight, cachexia, wasting, overweight, emaciation and such as in primary and secondary obesity Exclusions: assimilation functions (b520); general metabolic functions (b540); endocrine gland functions (b555) Sensations associated with the digestive system Sensations arising from eating, drinking and related digestive functions. Inclusions: sensations of nausea, feeling bloated, and the feeling of abdominal cramps, fullness of stomach, globus feeling, spasm of stomach, gas in stomach and heartburn Exclusions: sensation of pain (b280): ingestion functions (b510); digestive functions (b515); defecation functions (b525) General metabolic functions Functions of regulation of essential components of the body such as carbohydrates, proteins and fats, the conversion of one to another, and their breakdown into energy. Inclusions: functions of metabolism, basal metabolic rate, metabolic rate Exclusions: assimilation functions (b520); weight maintenance functions (b530); water, mineral and electrolyte balance functions Functions of the regulation of water, minerals and electrolytes in the body. Inclusions: functions of water balance, balance of minerals such as calcium, zinc and
b530 b535 b540	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system (b535) Weight maintenance functions Functions of maintaining appropriate body weight, including weight gain during the developmental period. Inclusions: functions of maintenance of acceptable Body Mass Index (BMI); impairments such as underweight, cachexia, wasting, overweight, emaciation and such as in primary and secondary obesity Exclusions: assimilation functions (b520); general metabolic functions (b540); endocrine gland functions (b555) Sensations associated with the digestive system Sensations arising from eating, drinking and related digestive functions. Inclusions: sensations of nausea, feeling bloated, and the feeling of abdominal cramps, fullness of stomach, globus feeling, spasm of stomach, gas in stomach and heartburn Exclusions: sensation of pain (b280); ingestion functions (b510); digestive functions (b515); defecation functions (b525) General metabolic functions Functions of regulation of essential components of the body such as carbohydrates, proteins and fats, the conversion of one to another, and their breakdown into energy. Inclusions: functions of metabolism, basal metabolic rate, metabolic rate exclusions: assimilation functions (b520); weight maintenance functions (b530); water, mineral and electrolyte balance functions (b545); thermoregulatory functions (b550); endocrine glands functions, (b555) Water, mineral and electrolyte balance functions Functions of the regulation of water, miner
b530 b535 b540	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system (b535) Weight maintenance functions Functions of maintaining appropriate body weight, including weight gain during the developmental period. Inclusions: functions of maintenance of acceptable Body Mass Index (BMI); impairments such as underweight, cachexia, wasting, overweight, emaciation and such as in primary and secondary obesity Exclusions: assimilation functions (b520); general metabolic functions (b540); endocrine gland functions (b555) Sensations associated with the digestive system Sensations arising from eating, drinking and related digestive functions. Inclusions: sensations of nausea, feeling bloated, and the feeling of abdominal cramps, fullness of stomach, globus feeling, spasm of stomach, gas in stomach and heartburn Exclusions: sensation of pain (b280); ingestion functions (b510); digestive functions (b515); defecation functions (b525) General metabolic functions Functions of regulation of essential components of the body such as carbohydrate, protein and fat, catabolism, anabolism, energy production in the body; increase or decrease in metabolic rate Exclusions: assimilation functions (b520); weight maintenance functions (b530); water, mineral and electrolyte balance functions (b545); thermoregulatory functions (b550); endocrine glands functions, and iron, and balance of electrolytes such as sodium and potassium; impairments such as calcium, zinc and iron, and balance of electrolytes such as sodi
b530 b535 b540	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system (b535) Weight maintenance functions Functions of maintaining appropriate body weight, including weight gain during the developmental period. Inclusions: functions of maintenance of acceptable Body Mass Index (BMI); impairments such as underweight, cachexia, wasting, overweight, emaciation and such as in primary and secondary obesity Exclusions: assimilation functions (b520); general metabolic functions (b540); endocrine gland functions (b555) Sensations associated with the digestive system Sensations arising from eating, drinking and related digestive functions. Inclusions: sensations of nausea, feeling bloated, and the feeling of abdominal cramps, fullness of stomach, globus feeling, spasm of stomach, gas in stomach and heartburn Exclusions: sensation of pain (b280); ingestion functions (b510); digestive functions (b515); defecation functions (b525) General metabolic functions Functions of regulation of essential components of the body such as carbohydrates, proteins and fats, the conversion of one to another, and their breakdown into energy. Inclusions: functions of metabolism, basal metabolic rate, metabolism of carbohydrate, protein and fat, catabolism, anabolism, energy production in the body; increase or decrease in metabolic rate Exclusions: assimilation functions (b520); weight maintenance functions (b535); weight maintenance functions (b535); weight maintenance functions (b555) Water, mineral and el
b530 b535 b540	Exclusions: ingestion functions (b510); assimilation functions (b520); defecation functions (b525); sensations associated with the digestive system (b535) Defecation functions Functions of elimination of wastes and undigested food as faeces and related functions. Inclusions: functions of elimination, faecal consistency, frequency of defecation; faecal continence, flatulence; impairments such as constipation, diarrhoea, watery stool and anal sphincter incompetence or incontinence Exclusions: digestive functions (b515); assimilation functions (b520); sensations associated with the digestive system (b535) Weight maintenance functions Functions of maintaining appropriate body weight, including weight gain during the developmental period. Inclusions: functions of maintenance of acceptable Body Mass Index (BMI); impairments such as underweight, cachexia, wasting, overweight, emaciation and such as in primary and secondary obesity Exclusions: assimilation functions (b520); general metabolic functions (b540); endocrine gland functions (b555) Sensations associated with the digestive system Sensations arising from eating, drinking and related digestive functions. Inclusions: sensations of nausea, feeling bloated, and the feeling of abdominal cramps, fullness of stomach, globus feeling, spasm of stomach, gas in stomach and heartburn Exclusions: sensation of pain (b280); ingestion functions (b510); digestive functions (b515); defecation functions (b525) General metabolic functions Functions of regulation of essential components of the body such as carbohydrate, protein and fat, catabolism, anabolism, energy production in the body; increase or decrease in metabolic rate Exclusions: assimilation functions (b520); weight maintenance functions (b530); water, mineral and electrolyte balance functions (b545); thermoregulatory functions (b550); endocrine glands functions, and iron, and balance of electrolytes such as sodium and potassium; impairments such as calcium, zinc and iron, and balance of electrolytes such as sodi

b550	Thermoregulatory functions
	Functions of the regulation of body temperature.
	Inclusions: functions of maintenance of body temperature; impairments such as hypothermia, hyperthermia
1 000	Exclusions: general metabolic functions (b540); endocrine gland functions (b555)
b620	Urination functions
	Functions of discharge of urine from the urinary bladder.
	Inclusions: functions of urination, frequency of urination, urinary continence; impairments such as in stress, urge, reflex, overflow, continuous incontinence, dribbling, automatic bladder, polyuria, urinary retention and urinary urgency
	Exclusions: urinary excretory functions (b610); sensations associated with urinary functions (b630)
b630	Sensations associated with urinary functions
5030	Sensations arising from voiding and related urinary functions
	Inclusions: sensations of incomplete voiding of urine, feeling of fullness of bladder
	Exclusions: sensations of pain (b280); urination functions (b620)
b710	Mobility of joint functions
	Functions of the range and ease of movement of a joint.
	Inclusions: functions of mobility of single or several joints, vertebral, shoulder, elbow, wrist, hip, knee, ankle, small joints
	of hands and feet; mobility of joints generalized; impairments such as in hypermobility of joints, frozen joints, frozen
	shoulder, arthritis
	Exclusions: stability of joint functions (b715); control of voluntary movement functions (b760)
b715	Stability of joint functions
	Functions of the maintenance of structural integrity of the joints.
	Inclusions: functions of the stability of a single joint, several joints, and joints generalized; impairments such as in
	unstable shoulder joint, dislocation of a joint, dislocation of shoulder and hip
1.700	Exclusion: mobility of joint functions (b710)
b730	Muscle power functions
	Functions related to the force generated by the contraction of a muscle or muscle groups.
	Inclusions: functions associated with the power of specific muscles and muscle groups, muscles of one limb, one side of
	the body, the lower half of the body, all limbs, the trunk and the body as a whole; impairments such as weakness of small muscles in feet and hands, muscle paresis, muscle paralysis, monoplegia, hemiplegia, paraplegia, quadriplegia
	and akinetic mutism
	Exclusions: functions of structures adjoining the eye (b215); muscle tone functions (b735); muscle endurance functions
	(b740)
b735	Muscle tone functions
	Functions related to the tension present in the resting muscles and the resistance offered when trying to move
	the muscles passively.
	Inclusions: functions associated with the tension of isolated muscles and muscle groups, muscles of one limb, one side of the body and the lower half of the body, muscles of all limbs, muscles of the trunk, and all muscles of the body;
	impairments such as hypotonia, hypertonia and muscle spasticity
	Exclusions: muscle power functions (b730); muscle endurance functions (b740)
b740	Muscle endurance functions Muscle endurance functions
5740	Functions related to sustaining muscle contraction for the required period of time.
	Inclusions: functions associated with sustaining muscle contraction for isolated muscles and muscle groups, and all
	muscles of the body; impairments such as in myasthenia gravis
	Exclusions: exercise tolerance functions (b455); muscle power functions (b730); muscle tone functions (b735)
b755	Involuntary movement reaction functions
	Functions of involuntary contractions of large muscles or the whole body induced by body position, balance
	and threatening stimuli.
	Inclusions: functions of postural reactions, righting reactions, body adjustment reactions, balance reactions, supporting
	reactions, defensive reactions
1.700	Exclusion: motor reflex functions (b750)
b760	Control of voluntary movement functions
	Functions associated with control over and coordination of voluntary movements.
1	Inclusions: functions of control of simple voluntary movements and of complex voluntary movements, accordination of
Ī	
	voluntary movements, supportive functions of arm or leg, right left motor coordination, eye hand coordination, eye foot
	voluntary movements, supportive functions of arm or leg, right left motor coordination, eye hand coordination, eye foot coordination; impairments such as control and coordination problems, e.g. dysdiadochokinesia
b770	voluntary movements, supportive functions of arm or leg, right left motor coordination, eye hand coordination, eye foot coordination; impairments such as control and coordination problems, e.g. dysdiadochokinesia Exclusions: muscle power functions (b730); involuntary movement functions (b765); gait pattern functions (b770)
b770	voluntary movements, supportive functions of arm or leg, right left motor coordination, eye hand coordination, eye foot coordination; impairments such as control and coordination problems, e.g. dysdiadochokinesia Exclusions: muscle power functions (b730); involuntary movement functions (b765); gait pattern functions (b770) Gait pattern functions
b770	voluntary movements, supportive functions of arm or leg, right left motor coordination, eye hand coordination, eye foot coordination; impairments such as control and coordination problems, e.g. dysdiadochokinesia Exclusions: muscle power functions (b730); involuntary movement functions (b765); gait pattern functions (b770) Gait pattern functions Functions of movement patterns associated with walking, running or other whole body movements.
b770	 voluntary movements, supportive functions of arm or leg, right left motor coordination, eye hand coordination, eye foot coordination; impairments such as control and coordination problems, e.g. dysdiadochokinesia Exclusions: muscle power functions (b730); involuntary movement functions (b765); gait pattern functions (b770) Gait pattern functions Functions of movement patterns associated with walking, running or other whole body movements. Inclusions: walking patterns and running patterns; impairments such as spastic gait, hemiplegic gait, paraplegic gait,
b770	voluntary movements, supportive functions of arm or leg, right left motor coordination, eye hand coordination, eye foot coordination; impairments such as control and coordination problems, e.g. dysdiadochokinesia Exclusions: muscle power functions (b730); involuntary movement functions (b765); gait pattern functions (b770) Gait pattern functions Functions of movement patterns associated with walking, running or other whole body movements. Inclusions: walking patterns and running patterns; impairments such as spastic gait, hemiplegic gait, paraplegic gait, asymmetric gait, limping and stiff gait pattern
b770	Exclusions: muscle power functions (b730); involuntary movement functions (b765); gait pattern functions (b770) Gait pattern functions Functions of movement patterns associated with walking, running or other whole body movements. Inclusions: walking patterns and running patterns; impairments such as spastic gait, hemiplegic gait, paraplegic gait,

b810	Protective functions of the skin
	Functions of the skin for protecting the body from physical, chemical and biological threats.
	Inclusions: functions of protecting against the sun and other radiation, photosensitivity, pigmentation, quality of skin;
	insulating function of skin, callus formation, hardening; impairments such as broken skin, ulcers, bedsores and thinning
	of skin
	Exclusions: repair functions of the skin (b820); other functions of the skin (b830)

BODY STRUCTURES
= anatomical parts of the body such as organs, limbs and their components

s110	Structure of brain
s120	Spinal cord and related structures
s130	Structure of meninges
s410	Structure of cardiovascular system
s430	Structure of respiratory system
s530	Structure of stomach
s710	Structure of head and neck region
s720	Structure of shoulder region
s730	Structure of upper extremity
s750	Structure of lower extremity
s810	Structure of areas of skin

ACTIV	ACTIVITIES AND PARTICIPATION		
= execu	execution of a task or action by an individual and involvement in a life situation		
d110	Watching Using the sense of seeing intentionally to experience visual stimuli, such as watching a sporting event or		
	children playing.		
d115	Listening		
	Using the sense of hearing intentionally to experience auditory stimuli, such as listening to a radio, music or a lecture.		
d120	Other purposeful sensing		
	Using the body's other basic senses intentionally to experience stimuli, such as touching and feeling textures, tasting sweets or smelling flowers.		
d130	Copying		
	Imitating or mimicking as a basic component of learning, such as copying a gesture, a sound or the letters of an alphabet.		
d135	Rehearsing		
	Repeating a sequence of events or symbols as a basic component of learning, such as counting by tens or practising the recitation of a poem.		
d155	Acquiring skills		
	Developing basic and complex competencies in integrated sets of actions or tasks so as to initiate and follow through with the acquisition of a skill, such as manipulating tools or playing games like chess. Inclusion: acquiring basic and complex skills		
d160	Focusing attention		
	Intentionally focusing on specific stimuli, such as by filtering out distracting noises.		
d166	Reading		
	Performing activities involved in the comprehension and interpretation of written language (e.g. books,		
	instructions or newspapers in text or Braille), for the purpose of obtaining general knowledge or specific information. Exclusion: learning to read (d140)
